Password

**Default password:**

NICO

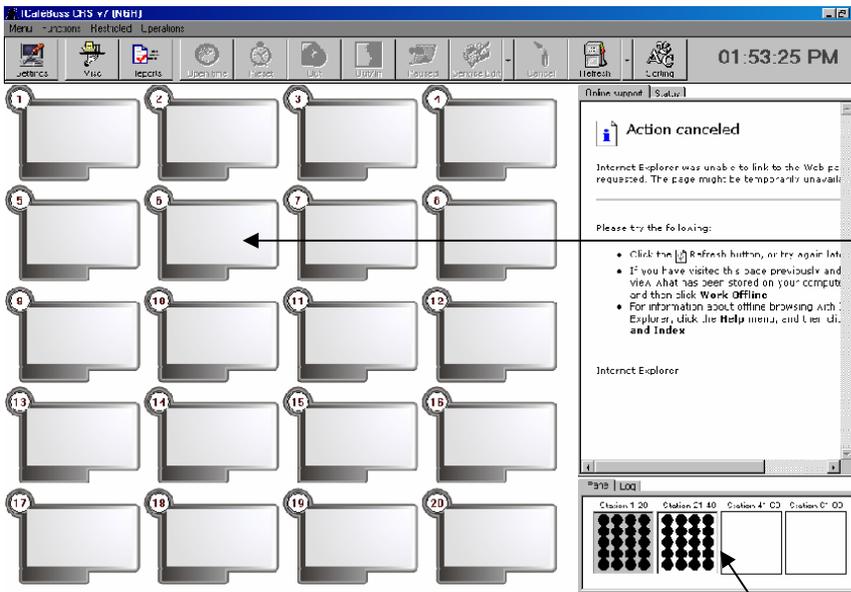

After logging in, this window will appear to verify the successful connection of the client software.

Press **CONNECT**

Connected client stations will be displayed

Press **CLOSE** button to proceed.

This is your **transaction window**. The button boxes with numbers are visual representation of the client.

Click your desired box to conduct transaction.

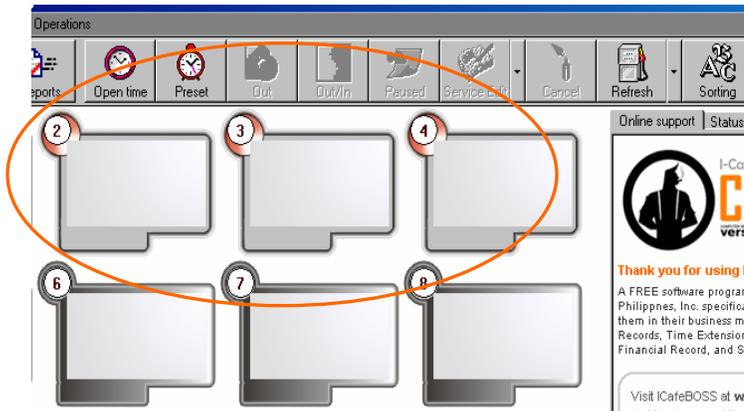

**Station Panel:** To view/switch from different stations, click on desired window slide

### Function buttons

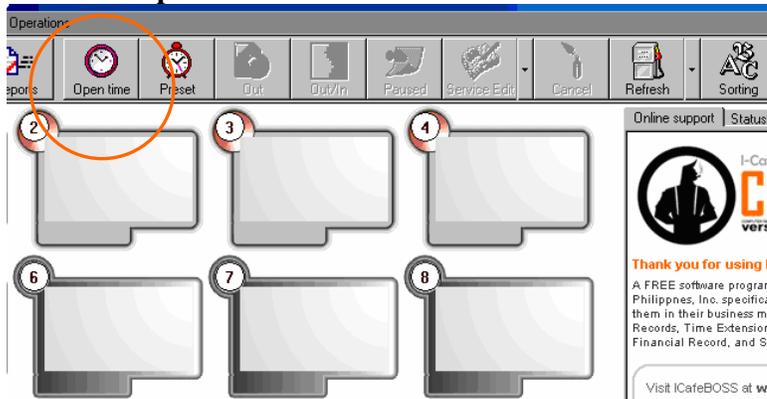

How to transact an **Open Time** log in?

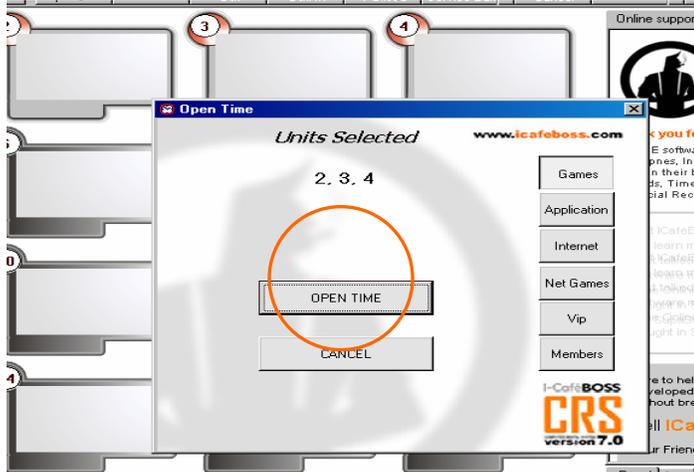

1. Click your desired station/s from the transaction form.

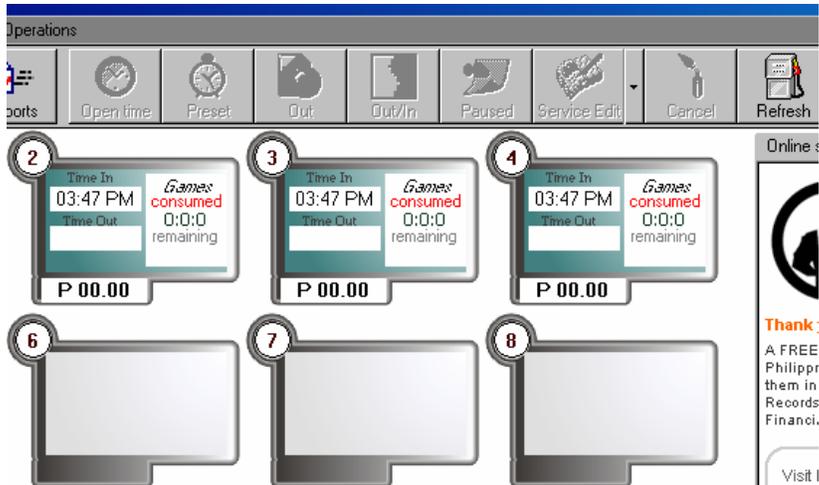

2. Click **Open Time** from the function buttons

3. Open time window will appear. Select service to render. Then click open time

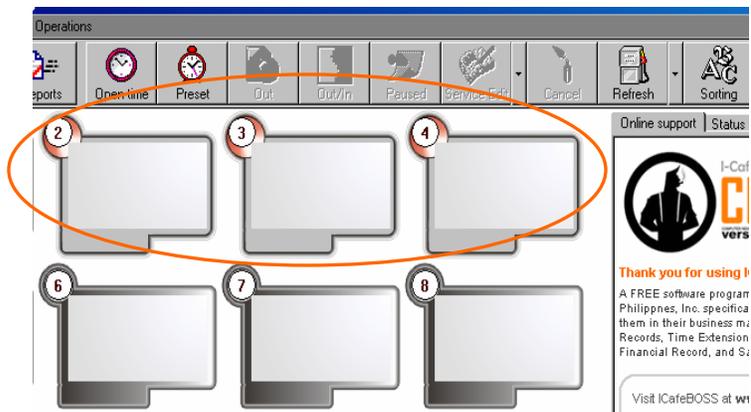

4. A successful Open Time transaction should produce a result similar to the image below

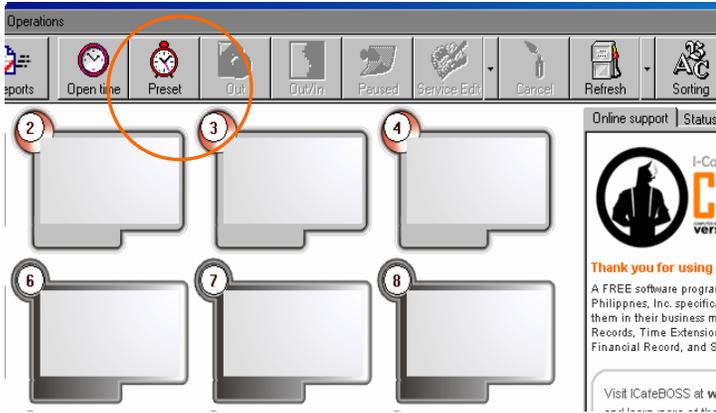

How to transact a **Preset** time log in?

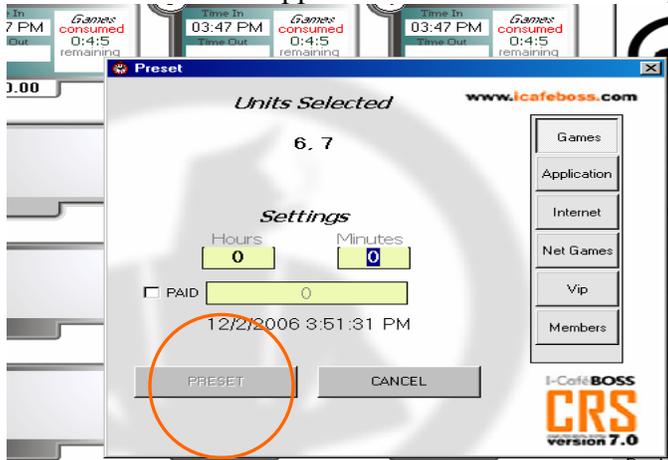

- 1 Click your desired station /stations from the transaction form.

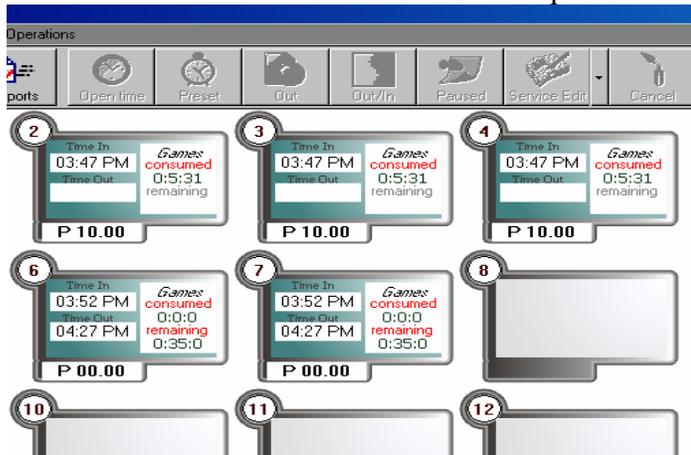

2. Click Preset from the function buttons

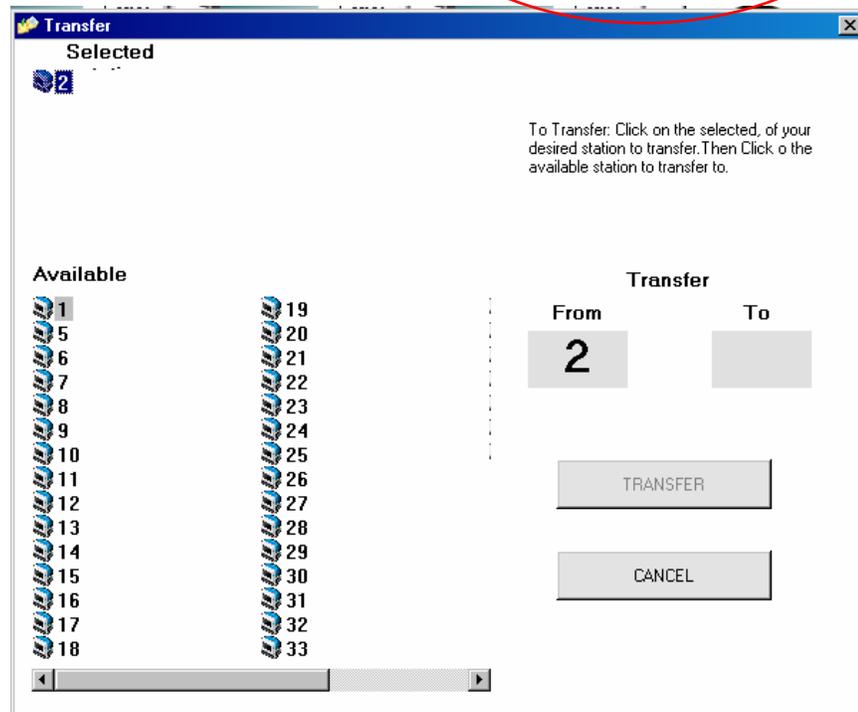

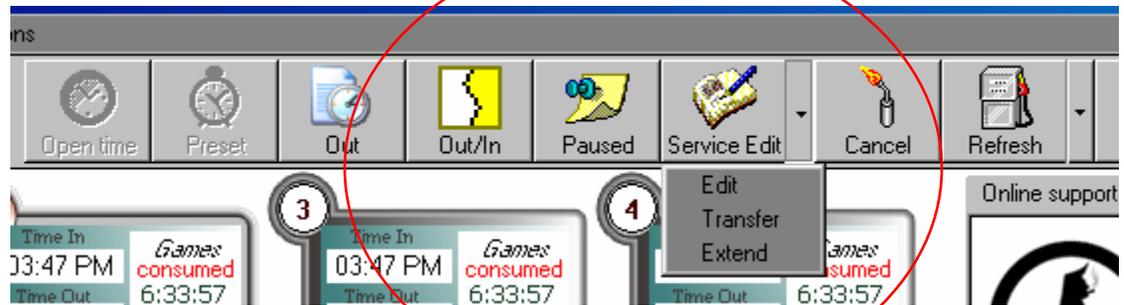

3. Preset form will appear. Select service to render, input Hr/Min, then click preset.

4. A successful Preset transaction should produce a result similar to the image below

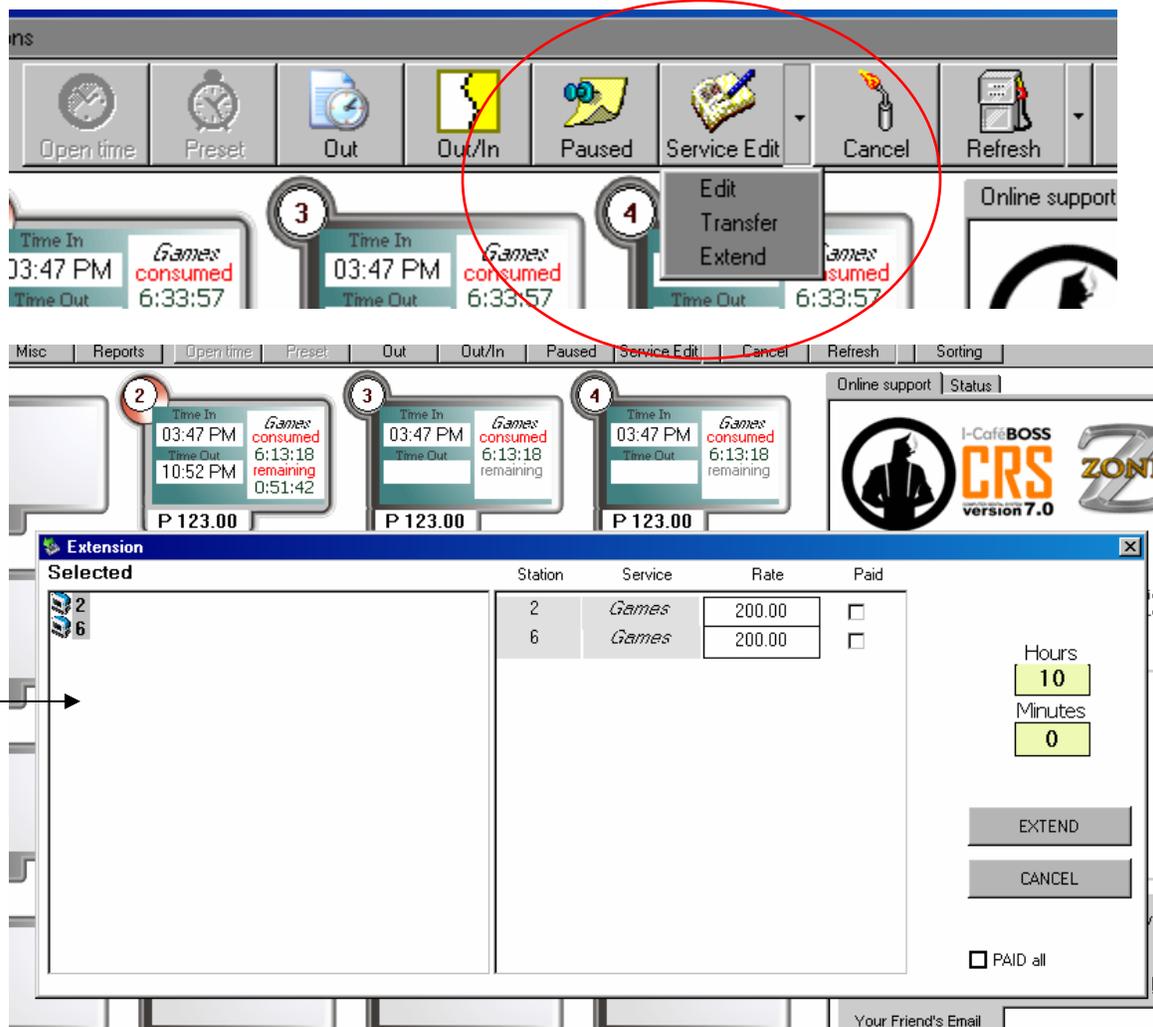

How to **transfer** from one station to another?

To Transfer: Click on the selected PC unit which you wish to transfer. Then, click on the available unit that you will be transferring to.

## How to extend time for the preset transaction?

1. After selecting station/stations to extend, extension window will appear.
2. Click from the list of selected units to perform extension.
3. For multi selection, hold down the shift key then click on each icon.
4. Enter the Hr/Minutes of extension.
5. Click EXTEND

## How to edit transaction?

1. Convert to open time: A preset station will be converted to open time mode.
2. Edit payment: You can mark a client as paid or adjust payment details made by the customer
3. Adjust Preset: Allows you to adjust the preset hour/minutes of the preset mode and convert open time to preset mode.
4. Correct service error: In changing service, the bill will be adjusted to the corresponding setting of the new service rendered.

5. Transfer to a different service: Separate bills are issued for different services performed in a unit. Each new service billing starts with 0.

The screenshot shows a software interface for managing transactions. A toolbar at the top contains icons for 'Open time', 'Preset', 'Out', 'Out/In', 'Paused', 'Service Edit', 'Cancel', and 'Refresh'. The 'Service Edit' icon is circled in red. A context menu is open over the 'Service Edit' icon, showing options: 'Edit', 'Transfer', and 'Extend'. The 'Transfer' option is highlighted. Below the toolbar, there are several transaction cards showing 'Time In', 'Games consumed', and 'Time Out'. A dialog box titled 'Edit transaction' is open, showing various settings and a table.
