# OrgChart for Visio
add-in for Visio 2010

An Exciting Breakthrough in Organizational Chart Software

OrgChart for Visio is a new Add-in module for Visio 2010 / 2013 Professional or Premium that provides a breakthrough in the way organization charts are created and managed. OrgChart for Visio is an integrated best-of-breed solution that greatly enhances Visio's existing charting, data graphics, and reporting functions transforming Visio into a powerful, fully automated Human Capital Management visualization tool.

The Top 4 Reasons Visio You Need OrgChart for Visio

1. **Manage Charts of any Size** – OrgChart for Visio is the program that easily creates and manages data-driven organizational charts from 10 to 10,000 employees. Use any data file to create all or a portion of an organization in minutes.

2. **Full Automation** – Need to update your charts? OrgChart for Visio will manage all personnel changes, additions, and deletes straight from your data source. Simply refresh charts with one click and all org chart updates are made instantly.

3. **One-Click Formatting** – Patented, advanced formatting tools give one-click formatting for box styles, sizes, formats, themes and all visual aspects of the data.

4. **Easy Publishing** – Integration with the full Microsoft technology stack gives a full range of publishing options. Share charts through interactive PDF, SharePoint, Web or any Data source.

Create dynamic, data-driven Organization Charts. Connect your Organization Charts to multiple data sources including Microsoft Excel, SQL Server, SharePoint Services, or any ODBC compliant database using the Data Selector and Auto-Link wizards. Always keep the linked data in your diagrams up-to-date effortlessly using Auto-Refresh. Publish your diagrams to the Web, PDF, Microsoft Office and SharePoint.

OrgChart for Visio empowers your Company to better manage your workforce, easily integrate your planning process and help the sales organization better manage key accounts.
